

Sharp's B2B Portal

Managing your fleet has never been easier.

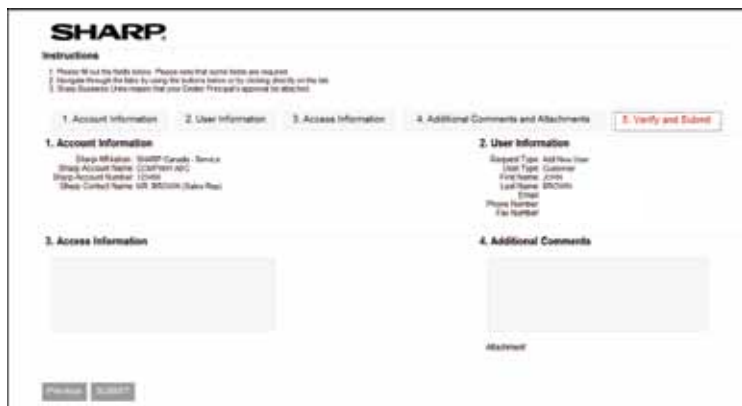

Sign up for Sharp's B2B portal and put the power to manage your Sharp equipment at your fingertips. With 24/7 access, you can easily request service calls, order supplies, track request status, submit meter usage readings, and view invoices—anytime.

Take control with Sharp.

Simple to set up. Simple to use.

To get started, simply go to www.sharpportals.ca Complete the registration, and Sharp will activate your account, with Login and Password, within 48 hours.

Once your account is active, monitoring and managing your fleet is simple. Just select relevant the device(s), click on the action you want to perform, fill in any required fields, and submit. **It's that easy.**

Real tracking. Real information. In real time.

Your personalized Sharp B2B Portal connects you to up-to-the-minute information about every networked Sharp device in your fleet. Just log in, select one or more devices, and with a couple of clicks you can:

- request service calls and supplies
- submit or receive meter readings
- view invoices to track costs
- monitor the status of your requests
- download historical summary reports

The Sharp Experience: Everything a customer should expect from a friendship—**trust, dependability, accountability, and flexibility.** All within a fun and professional environment.
